

AMECLONDON

May 2011

To design and create a business lounge style reception area offering coffee and refreshments, meeting facilities and waiting area.

AMEC London

By KLC

AMEC invited KLC to design & build their new reception for their London Project Centre.

The new reception area had to be multifunctional, with a two person reception counter, waiting area for guests, multiple meeting rooms, and a breakout zone with coffee bar for refreshments.

The solution is a high end space incorporating good quality bespoke veneered columns, mixed with cream leather upholstery and contemporary lighting.

LED lights glow from beneath the walls, LED screens are recessed within feature wavy gloss walls and black glass splash-backs adorn the coffee point.

A very successful project in just 4 weeks.
