

AMECLONDON

June 2010

To create a functional environment for 160 staff over two floors within short timeframe

AMEC London

By KLC

KLC were excited with the recent opportunity of working with AMEC natural resources in their London office in Old Street.

The project was for a new division set up for approximately 160 staff over two floors. The price conscious project included creating full height glazed offices, relaxing breakout areas, supplying a full range of furniture and seating and all the relevant data and power infrastructure. The Conference suites were installed with Polycom video conferencing systems and the meeting rooms with presentation equipment controlled via AMX control systems.

The project was a great success and the 20,000 square foot offices were delivered on time and on budget, completed in just four weeks with only 24 hours lead in time.

KLC have enjoyed working with AMEC throughout this project and look forward to working with them again in the near future.
