

February 2007

To strip out and redesign an impressive working environment for clients to visit. Entire project was completed within 10 days to minimise downtime.

Kazimir Partners London EC1

By KLC

Kazimir Partners is an American / Russian financial organisation who were working in dated offices and needed to create more desk positions to cope with anticipated expansion and also to update the office environment to improve staff morale.

KLC were invited to suggest ideas and subsequently produced a design that gave them exactly what they required. Using bench system furniture and clever space planning the extra desk positions were achieved and improved lighting along with full height glazed partitions and doors provided a light and airy environment.

But one of the major achievements was the timescale; because of the nature of Kazimir's business KLC had only 10 days to strip out the complete floor, run new power and data to the new desk positions, install new ceilings and partitions, lay the carpets and install the furniture and storage but it was completed on time and in budget! Another satisfied customer.

Project Overview

Client: Kazimir Partners
Location: London EC1
Size: 2000sq.ft
Timescale: 10 weeks
